

WHO WE ARE

ATS+Partners is an AI-enabled consulting firm specializing in organizational development and IT transformation for public and private sector clients. We bring together strategic advisory, workforce development, and technology modernization to help organizations perform at their best — aligning leadership, strengthening operations, and driving meaningful change. From high-level strategy to hands-on implementation, we embed directly into client environments to reduce friction and deliver results that last.

OUR VALUES & DIFFERENTIATORS

- P PERFORMANCE**
Delivering measurable outcomes, every engagement
- O ORGANIZATIONAL GROWTH**
Strengthening teams with capability that outlasts our involvement
- I INNOVATION**
Applying emerging technology where it creates real advantage
- S SUSTAINABILITY**
Building solutions designed for longevity, not just delivery
- E EXCELLENCE**
Upholding the highest standards in our work, our partnerships, and our people

CORE CAPABILITIES

AI Consulting & Integration

ATS+Partners assesses your environment, identifies critical gaps, and embeds AI-driven solutions that translate complexity into operational clarity — improving how your organization decides, analyzes, and executes while reducing costs. The result is a scalable, AI-enabled infrastructure built around your mission and strategic priorities.

Managed IT Services

Our team manages critical IT infrastructure end-to-end across cloud, server, and network environments, ensuring your systems remain stable, secure, and scalable so your teams stay focused on mission-critical work, not operational disruptions.

IT Staffing & Workforce Development

ATS+Partners sources and places skilled IT professionals with the expertise your roles demand, then strengthens their impact through targeted coaching and training aligned to your most critical technology and organizational priorities.
